

Triumphant Brass - Cory Band

(Reference #25043)

Triumphant Brass, as the title suggests is all about Cory Band's contest triumphs during their 125th anniversary year of 2009.

On the Shoulders of Giants was the band's own-choice test-piece selection when they won the European Brass Band Championships in May. *Titan's Progress* was the test-piece when Cory triumphed at the British Open Brass Band Championship in September. *From Ancient Times* was the set test-piece at the European Brass Band Championships in May and although *Brass Triumphant* was written for the band's 125th anniversary concert and premiered at St David's Hall Cardiff in June, the beautiful third movement, *Mist in the Afan Forest* was included in the band's winning performance at the World Brass Band Championships in July.
